

# 5 Reasons to Choose GeoTrust

## 1. Your convenience is important

GeoTrust makes it fast and easy to get the SSL certificate you need. Your time is valuable so **we optimize** our systems to make **setting up, using, managing and renewing** your SSL certificates efficient and straightforward.

## 2. We are inexpensive but good

Our prices are low and our products are good. Our SSL supports 99%+ browsers and all popular mobile devices and delivers 256-bit encryption. Our SSL certificates are SAN-enabled so you have inexpensive and flexible multi-domain options. If you order [www.domain.com](http://www.domain.com), **you get domain.com for free**. With only one certificate, **you can secure an unlimited number of servers and reissues are free**. Plus if you want to buy a lot of certificates, we'll be happy to work out a flexible pricing arrangement that fits with your business.

## 3. You get helpful, expert support

When you need help, you'll talk to a friendly security expert—not an internet generalist. SSL is not an afterthought at GeoTrust, nor is it tech-elite. Choose us as your security partner and get the kind of practical help you want when you need it.

## 4. Your good reputation is our good reputation

GeoTrust is an established, respectable SSL brand that reassures your web site visitors that you take their security seriously. Your customers can trust the encryption strength of our certificates because they are based on a stronger 2048-bit root. Our business practices are WebTrust certified for:

- security
- availability
- processing integrity
- confidentiality
- privacy

Finally, we respect your privacy so our internal data systems are PCI security standard compliant to keep your information secure.

## 5. Get What You Want

GeoTrust has the SSL certificate products you need, ranging from lightning-fast simple domain validated SSL to business-boosting, green bar triggering, extended validation (EV) SSL in high-security browsers.
